

## Regional School Unit 24

### **Donations from Viking Lumber and Ellsworth Building Supplies**

#### **For Adult Education**

One aspect of the Integrated Education and Training Grant that we received is building partnerships with local businesses to support work force training.

For our Residential Carpentry program, we contacted the two local lumber yard / building supply companies. Both Viking Lumber and EBS were excited to hear about our training program and have offered support.

Viking Lumber offered to supply personal tools for each participant, which will be 7 people. EBS has donated a portable compressor and air hose. I am asking that we accept these donations to support our program.

Ander Thebaud  
Adult Education Director
