## **Explanation of Request for Permission to Accept \$500 Discretionary Fund from the Schoodic Community Foundation:**

We applied for two grants in the last year through the Schoodic Community Foundation. We were not awarded either grant because one of the foundations' bylaws asks that monies be awarded only to students on the Peninsula. In each grant, we cannot guarantee that only those students would use the technology or kitchen tables that we were purchasing. Instead, they offered us a \$500 discretionary fund if I would guarantee that the funds are used for students on the Peninsula. I am able to make that commitment as we have other funds for other students.

Respectfully Submitted,

Marianne DeRaps  
Principal
