Give

Digital Art in Downeast Maine

My students need 20 Wacom illustration tablets and a printer to keep up with today's technology.

My Students

My students are enthusiastic artists who are always willing to do their best and try new art techniques and materials. I always love seeing their happy faces and excited smiles as they come see me. This year, rather than being on a cart, art class now has its own classroom! This gives my students a chance at using bigger and better materials that don't need to be transported on a cart. These kids love to learn!

My Project

I teach in Steuben, Maine in one of the most beautiful parts of Maine. However, being a rural area and one of the poorest parts of the state of Maine make it a struggle to provide opportunities to my students, who up until this year didn't even have an art room in their school! Now that we do, we are trying to expand on not only student art knowledge, but also potential careers such as digital illustration and design. I have requested a class set of Wacom illustration tablets and a printer which will help spark that excitement to learn and grow as artists.

Ms. Jordan

Grades 6-8

AGO

Ms. Jordan posted an update

I am very excited to get started with using these tablets with my students. We are truly grateful for the time and energy and funding that you put forth for us and we look very much forward to showcasing our work for you. Thank you for this opportunity to spark an interest in lifelong skills that could possibly lead to future careers.

With gratitude,
Ms. Jordan
